Hi James -

I don't think we've worked together before. I'm at HQ but have been on detail for a while.

See the attached CMS letter. It's been assigned to us for response but it is about a Region 3 issue so I need to talk to somebody there about the action the writer is concerned about. Would that be you, or is there another person I should talk to? It's about the Virginia Beach project, I think that's an ASR one?

I could give somebody a call after the appropriate person has had a chance to look at it. The response is due 4/20.

Thanks!

Keara Moore

Hi Keara,

Can I ask your help with this one? Even though we and not R3 would send, we will still need their input on the specifics of the project and the communications they have around it- I believe this is the big ASR project they have going.

It's due to Stef April 20.

Thank you!

Hello Holly,

I initially requested that the attached control be reassigned to Region 3, but according to DeMara Magruder, Nancy Grantham and Robin Richardson during a public affair director's call, the reassignment was disapproved.

This is a direct reply, so you, Brian, Ron or Anita can sign the reply.

Due today, but I'll ask for an extension to April 20th..

Control Subject: Oppose - The Hampton Roads Sanitation District (HRSD), with headquarters located in Virginia Beach, Virginia is planning to treat wastewater and discharge it by deep well injection into our drinking water aquifer. The plan is titled Sustainable Water Initiative for Tomorrow (SWIFT).

From: Cole, Stuart Kircham

Thanks,
Steph
